PrimaWrap

Low Elasticity Tubular Bandage

Description

The low-elasticity tubular bandage is crafted from natural fibers. With a length of 4 meters, it is available in 7 sizes to accommodate to diverse body parts.

Application

The bandage is used to secure dressings and splints due to its low elasticity, which enables optimal fixation of the splint.

Features & Benefits

- Soft & comfortable
- Easy to apply with clips
- Latex - free
- Colour: white
